CAREER SUMMARY

An engineering professional with hands-on coding experience, proficient in C++ and data structures. Adept at problem-solving, optimizing and implementing efficient solutions. Passionate about collaborating with teams, software development and adapting to new technologies.

EXPERIENCE

Generative AI Intern
Flaunch Technologies   Oct. 2024 – Nov. 2024

- Explored Gen AI concepts, including model training, fine-tuning techniques, and optimization strategies for improving performance.
- Worked with Large Language Models (LLMs) to research and develop AI-driven solutions for applications across sectors.
- Applied AI methodologies to real-world scenarios, focusing on enhancing accuracy, efficiency, and usability.

EDUCATION

Bachelor of Technology – Information Technology   CGPA : 8.91/10
Bhagwan Parshuram Institute of Technology   Nov. 2021 – Jun. 2025

Coursework: Data Structures and Algorithms, Object-Oriented Programming, Computer Networks, Software Engineering, Database Management System, Operating System

PROJECTS

Happeno | *Next.js, TypeScript, MongoDB, Clerk, Tailwind CSS, ShadCN UI* | Github | Deployed

- Built a full-stack event management platform enabling users to create, manage, and discover events.
- Integrated Clerk for secure user authentication and MongoDB for efficient data storage.
- Designed a responsive, modern UI using Tailwind CSS and ShadCN UI for seamless cross-device experience.
- Optimized backend APIs with Next.js for high performance and scalability.

URL Shortner | *React, MongoDB, NodeJs, ExpressJs, Supabase, JavaScript* | Github | Deployed

- Developed a full-stack URL shortener application with a responsive front-end and a robust back-end.
- Integrated QR code generation for seamless sharing.
- Leveraged Supabase for secure authentication and real-time data management, ensuring a scalable and reliable application.
- Utilized Shadcn for consistent, visually appealing UI design.

Razorpay Clone Website | *React, Tailwind-CSS, NodeJs*

- Created a Razorpay Clone website, replicating the functionality of the renowned payment gateway, to facilitate secure online payments and financial transactions.
- Developed user-friendly interfaces, integrated payment processing, and ensured robust security measures, showcasing expertise in web development and payment gateway systems.

CERTIFICATIONS

The Complete 2023 Web Development Bootcamp
Angela Yu – Udemy   Sep. 2023

C++ Programming - Beginner to Advance
Abdul Bari – Udemy   Jan. 2023

SKILLS

Programming Languages: C/C++, Java, JavaScript, SQL
Web Development: HTML/CSS, JavaScript, React, Node.js, Tailwind CSS
Databases: MySQL, MongoDB
Tools: Git, VS Code, Jira, Docker, Ollama
Soft Skills: Problem-Solving, Critical Thinking, Leadership, Communication, Adaptability

MILESTONES

AR Effects – Have created 10+ AR effects on Instagram and Facebook. Have accumulated over 15.4 Million Impressions and over 3.8 Million opens.
